FCM 2020 – Pitching Day

The FCM 2020 Pitching Day is an opportunity for the shortlisted fintechs to present their capabilities and demonstrate an updated version of their tech solutions, showcased for an audience of fellow fintechs, financial institutions, and other key stakeholders, partners, and potential investors.

The pitching session will showcase our shortlisted fintechs who are actively seeking partnerships (“Pitch Session 1”) with a financial institution in Myanmar, as well as those shortlisted fintechs who have already engaged with a financial institution in developing a fintech collaboration (“Pitch Session 2”). We anticipate that financial institutions will be very keen to participate in Pitch Session 1, to be able to view fintechs with potential solutions that address pain points or problems that they face. After the Pitching Day event, there will be a sufficient period of for all fintech finalists to develop—or further develop--collaborations with banks, MFIs, and mobile financial services providers.

FCM 2020 – Finalist Demo Day

The Finalist Demo Day was originally scheduled for November 2020, but as a result of COVID-19 and the national elections, we have rescheduled this capstone event to April 2021. It will be the opportunity for shortlisted fintechs to participate in a competitive and judged forum to present and demonstrate their solutions to fintech problems, with prize(s) being offered to the winners. This event will bring the FCM 2020 programme to a close.
